BIO

Balthazar Bierman is an independent producer and fixer skilled at aligning budgets and schedules with creative ideas to produce exceptional visual content.

He is an accomplished professional with 25 years of experience in drama, feature films, documentaries, corporate videos, commercials, game shows, and talk shows.

During his six-year tenure as the Head of Operations at Penguin Films, he amassed experience in managing multiple projects concurrently. He excels in team management, negotiations and conflict resolution, troubleshooting, project oversight, and financial administration.

Balthazar's passion for fixing started in 2018, and he has collaborated with well-known companies such as National Geographic, HBO, Apple TV, Discovery, Disney+, ZDF, Arte and YouTube. He has a solid technical understanding of how best to utilise resources and find cost-effective solutions to realize a director's vision. His strengths include making quick and well-informed decisions, a can-do attitude, sharp intellect, dedication, a friendly disposition, and a sense of humour – all essential qualities in the film industry.

He has worked in the following countries: South Africa, Ghana, Nigeria, eSwatini, Namibia, Zimbabwe, Botswana, Lesotho, Mozambique, Uganda, Rwanda, Senegal, Somaliland, Somalia and Zimbabwe.

To recuperate from the demands of producing and fixing, Balthazar likes to spend time walking in nature, reading, a good television series and is restarting a previous love, yoga.
